

bioinorganic chemistry

an interdisciplinary journal

**devoted to all aspects of
biological inorganic chemistry**

Volume 7 • 1977

ELSEVIER NEW YORK

bioinorganic chemistry

an interdisciplinary journal

**seeking to establish direct
communication between inorganic
and biological chemists**

Papers are invited on the following subjects: the chemistry, structure, and function of metalloenzymes and of coordination compounds of biological interest; the interaction of inorganic compounds with proteins and nucleic acids, the enzymatic and nonenzymatic biochemistry of small molecules, elementary biocatalytic processes, the fundamental aspects of enzyme action, enzyme models, the prebiotic synthesis of biologically important organic compounds, the function and distribution of trace elements in living systems, and related subjects.

EDITOR

G. N. SCHRAUZER

Department of Chemistry, Revelle College,
University of California, P.O. Box 109,
La Jolla, California 92037 U.S.A.
